About Us

Based in Jamnagar, Gujarat, India, Dhruvik Amrutlal Lakkad is specializing in delivering the precision machined brass components for electrical industry, electronics industry, and lighting & earthing sector. We are recognized as the dependable manufacturer, exporter and supplier of Brass Parts, Brass Electrical Parts, Brass Inserts, Brass Rods, Fasteners, Brass Sanitary Parts, Earthing Accessories, and other products. Incorporated in the year 2001, today we have progressed to become the jack of all trades, delivering avant-garde brass products and others to clients at competitive prices. We give complete assurance for quality, as we are family run business and complete attention is given to every detail of products.

The products are manufactured using casting and extrusion process, under the supervision of engineers and quality supervisors. They use numerically controlled lathe machine, and other machinery to produce the products in all standard sizes. Depending on the type and size of client's order, we can do custom development of products according to their specifications of sizes, etc. With their stringent oversight on all the processes, immaculate surface finishing is assured. We can do polished, brushed, bright, and sand blast surface finishing, as per client's requirements.

Dhruvik Amrutlal Lakkad is located in South-Asia. This strategic geographic location allows us to cater domestic as well as international markets with ease. We are well known as the manufacturer, exporter and supplier of metal products such as Electrical & Electronics Accessories, Lighting & Earthing Accessories, Brass Pipe Fittings, and Fasteners. Our manufacturing unit is located in Jamnagar, Gujarat, India, which allows us to complete the large standard and OEM orders of clients based in North America, South America, Central America, Africa, Australia, Europe, and Middle East. We are supported with clearing and forwarding agents for delivering the consignments on time, by fast clearing at the border posts.
